

# UW Sun Lab is RECRUITING

## Postdoctoral Fellow

We're looking for a Postdoctoral Researcher to join our dynamic and collaborative research team at the University of Washington in vibrant Seattle! If you've got experience in materials synthesis and characterization in the realm of clean energy, we look forward to meeting you! As a bonus, if you also have interests in lab automation and artificial intelligence, you're the ideal candidate we've been searching for.

We extend a warm welcome to PhDs from diverse backgrounds, including but not limited to chemistry, materials science, chemical engineering, and related fields. Join us on an exciting journey to explore the frontiers of engineering and be the catalyst for innovation in clean energy technologies.

### Are you Interested?

We kindly request that you share us with your CV, research interests, and your objectives for your postdoctoral tenure to Dr. Shijing Sun (shijing@uw.edu)
